ARBEITSZEUGNIS FÜR FRAU IRANTZU SUBERVIOLA

Frau Irantzu Suberviola, geboren am 11.03.1980, war vom 15.03.2013 bis 14.06.2013 an meinem Institut beschäftigt. In dieser Zeit hatte Frau Suberviola die Aufgabe drei Internet Seiten zu gestalten. Hierbei ging es um eine Seite welche die Arbeit meiner Gruppe darstellen sollte, sowie 2 weitere Seiten, die Campus-weite Aktivitäten in den Bereichen "*Chromatin*" und "*Next-generation-Sequencing*" abbilden sollten. Neben dem Web-design war es auch wichtig interaktive Prozesse wie das Nutzen eines Intra-Nets zu integrieren.

Wichtig war auch das Frau Suberviola sich in die wissenschaftlichen Hintergründe eindenken musste um ein entsprechendes Design zu entwerfen. Ich stand daher mit Frau Suberviola in engen Kontakt und habe Sie als hochmotivierte Mitarbeiterin erlebt die sich durch großes Fachwissen auszeichnete und auch schwierige Fragen erfolgreich lösen konnte. Sie hat sich problemlos in für Sie neue Zusammenhänge eingedacht und die entsprechen Web-Seiten mit großem Elan und stetem Pflichtbewusstsein erstellt.

Ich habe Sie daher als sehr gewissenhaft und selbstständig arbeitende Mitarbeiterin in Erinnerung, die ihre Aufgaben immer planvoll und systematisch bearbeitete und erledigte. Mit den Ergebnissen ihrer Arbeit war ich sehr zufrieden.

Außerdem war Frau Suberviola stets freundlich und ausgeglichen

Ich wünsche Frau Suberviola auf ihrem weiteren Berufs- und Lebensweg alles Gute und weiterhin viel Erfolg.

Dear Sirs,

Ms. Irantzu Suberviola, born in March 11th, 1980, worked between January and March 2014 in the design and development of a web page for the European Molecular and Cellular Cognition Society, of which I am the current President.

The European Molecular and Cellular Cognition Society (EMCCS, URL: <http://www.emccs.org/>) is an international organization focused on fostering scientific exchanges in Europe in the field of Molecular and Cellular Cognition. Our scientific Society has great international visibility and includes several hundreds researchers in Europe. We regularly organize different sorts of international events, from practical courses and workshop to larger conferences. We therefore need a highly functional website to announce and advertise these events. Ms. Suberviola had the responsibility to re-design and program the contents of our new site, including the development of a new area for members (intranet) and an area for administration. In particular, Ms. Suberviola had the following objectives:

- Re-design of the frontend of the website of EMCCS keeping a style consistent with the previous one but improving its usability and appearance.
- Development of a *back-end* for administration of contents, users management and addition of new events.
- Development of a users database with different categories and privileges.
- Development of events database including an automatic confirmation and updating service by email.
- Development of the forms for registration.
- Safe password encryption for users.
- Optimization of the website for all kind of browsers.
- Positioning in search engines.

I have to say that Ms. Suberviola accomplished all these objectives with great professionalism and proficiency. She showed ample knowledge and expertise in the design and development of web pages and always found adequate solutions to our needs. Her attitude was always respectful, helpful and positive and her performance very effective. She was even willing to help us way beyond the contractual objectives and proposed very professional solutions to our problems. She was rigorous and systematic in her work and produced all the results in time with the highest standard. Both the external appearance and the internal organization of the site have great

quality and consistence. Moreover, the administration of the new web is very friendly and easy thanks to the work of Sta. Suberviola in the development of a highly functional internal administration system. As a result, our Society has now a highly functional and effective website.

EMCCS and I as its president are very thankful to Ms. Suberviola for the work conducted for us and wish her best luck in future projects. I recommend Ms. Suberviola as web designer without hesitation. I sincerely hope that the above establishes to your satisfaction Ms. Suberviola qualification for this kind of work.

Best regards,

Angel Barco, Ph.D
Scientific Investigator CSIC and EMCCS President
